Canvas Body and Optional Awnings/Walls	<p>All of the canvas used on the Kamper is pure duck 2 fold yarn warp & weft construction. We use Dynaproofed TM Australian made canvas throughout. This canvas still breathes air even though it is waterproof. The Dynaproofed TM production process ensures the chemical formulation is penetrated into the yarns of the base fabric. This is achieved by fully immersing the fabric into a padding bath and then squeezing the formulation into the fibres. This system also allows the fabric to "breathe" as the woven base fabric is not sealed by a coating.</p> <p>Billabong -Finished weight 12 oz. Roof: Light Sand 15oz. Walls: Khaki Billabong -Finished weight 12 oz 2m Kwik Awning x 6.7m is standard.</p> <p>Optional 2.4 metre or 2.6m x 6.7m Awning.
